

“ASSET” - *Advanced Save Skills Excellence Training* *Retention Training for “Win Back Teams”*

Premise for Training

Today’s customers are tough, demanding and quick to pull the plug. It’s estimated that over 2,500,000 customers in 2010 will change providers or will choose not to renew subscriptions, licenses or services. Some will leave because of non-controllable events, others will leave because of poor customer service, product issues and/or competitive issues. Regardless of the reasons, progressive organizations are becoming increasingly aware of the importance of proactively retaining their most critical asset – their customers.

In addition to revenue growth, management’s quest in today’s volatile marketplace should be to “save” unhappy customers, reduce “churn” and avoid the staggering re-acquisitions costs associated with having to replace a lost customer with a new one. Specific and targeted retention training is an investment that brings a measurable, sustainable return-on-investment to any customer service oriented organization.

ASSET, Advanced Save Skills Excellence Training, is a proven, customizable solution that not only reduces churn but enhances customer satisfaction and subscriber loyalty.

Program Description

ASSET© – is a customizable turnkey program comprised of four (4) modules. This program can be delivered in a one day format with each module averaging between 1-½ to 2 hours of content. The target audience includes: customer service agents, supervisors, team leaders and managers.

The program utilizes common language, processes and models based on PRO-QuEST Consultative Selling Skills. Each main module introduces the program’s philosophy, process and model. These key elements are linked to the participant’s on-the-job experience. Modules can be tailored to meet your customer challenges that are critical to your organization. Our programs integrate behavioral modeling and instructional strategies that can include video segments, participative discussions, small group exercises, and role play simulations. Extensive individual and group feedback is also a key learning deliverable.

Participants will demonstrate the ability to apply the appropriate customer service, sales and retention skills to:

**Program
Objectives**

- *Communicate honesty, trust and credibility to every customer wanting to cancel their policies, subscriptions or services.*
- *Improve overall retention statistics / metrics.*
- *Reinforce brand and company value proposition educating customers on your unique value proposition.*
- *Improve internal teamwork through the use of common language / process and expectations.*
- *Increase overall organizational profitability by retaining business that would otherwise be lost.*

Results Unlimited, Inc. is an internationally recognized leader in custom, turnkey training. As our name implies, we offer our clients an array of innovative training and consulting services that produce unlimited results. We believe:

**Our
Company**

- ★ *People are a company's most valuable resource.*
- ★ *Our value proposition is providing you with turnkey processes and learning exchanges that generate results.*
- ★ *Our unique approach and dynamic processes provide you competitive advantage and marketplace differentiation.*

Our team is committed to providing world-class solutions. We offer a broad range of experience, unparalleled expertise and delivery capabilities in the training industry. We are committed to exceed your expectations by providing exceptional service and delivering solutions that have a bottom line impact.
